

How we helped Bed Bath N' Table improve their housekeeping.

How many IT people does it take to manage Bed Bath N' Table's retail system? Just one. The reason: Retail Directions' end-to-end retail management system. It's fully integrated, so there are no time consuming interface issues to deal with. It's reliable, so there's no need to have a team standing by 24 hours a day. And it's fast and accurate, so Bed Bath N' Table can focus on building a retail business, not an IT empire. "Retail Directions' system is the retail technology for the 21st century," says Bed Bath N' Table General Manager, Andrew Marcun. "Our return on investment is astounding."
